

### REMARKS

Applicant acknowledges with appreciation the statement in the Office Action that claims 4, 14 and are allowed, and that claims 19-23 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. § 112, 2<sup>nd</sup> paragraph that are set forth in the Office Action.

Claims 19-23 have been cancelled and replaced with new claims 24-28, to avoid the unwieldy structural formulas and reaction schemes of the cancelled claims and to obviate the concerns raised in the Office Action. It is respectfully submitted that these new claims are patentable under 35 U.S.C. § 112, including its 2<sup>nd</sup> paragraph.

Support for the new claims is found throughout the specification, including in the reaction schemes set forth in the application. Specific support for the claims includes the following:

- New claim 24 corresponds to cancelled claim 19, and the method recited therein is discussed at the bottom of page 13 through page 15, and in the reaction schemes set forth in the application.
- New claim 25 corresponds to cancelled claim 20, and the method recited therein is discussed at page 16, and at page 8 with respect to some of the starting material.
- New claim 26 corresponds to cancelled claim 21, and the method recited therein is discussed at page 16.
- New claim 27 corresponds to cancelled claim 22, and the method recited therein is discussed at page 17.
- New claim 28 corresponds to cancelled claim 23, and the method recited therein is discussed at page 17.

In view of the foregoing, Applicant most respectfully requests allowance of all of the pending. However, if the Examiner believes that any further amendments to the claims are necessary, it would be very much appreciated if the Examiner would telephone applicant's undersigned representative to discuss same.
